REVISE REQUIREMENTS FOR "CHAMPION PLANT" TITLE;
NAME THIRD-QUARTER WINNING PLANTS

CHANGE REQUIREMENTS IN METAL AND MACHINE INDUSTRIES -- Budapest, Szabad Nep,
31 Oct 51

Requirements for attaining the title of "champion plant" have been modified
in the metallurgical and machine industries, to conform to economic and indus-
trial development. Requirements for the title are overfulfillment of produc-
tion and production cost plans, and completion of export and cooperative produc-
tion plans. No enterprise which exceeds its base wage is entitled to the
"champion plant" designation.

In interenterprise competition, the factors considered are: the extent
to which the total production plan is exceeded, spoilage reduction, increase
in the proportion of workers engaged in piecework, improvement in work discip-
line, and decrease in the number of workers with less than 100 percent produc-
tion. Results achieved in the Gazda movement, the material conservation move-
ment, and the introduction of new technological methods are also considered.

Interenterprise competition is judged quarterly.

THIRD QUARTER 1951 CHAMPION PLANTS NAMED -- Budapest, Szabad Nep, 9 Nov 51

The following plants were judged winners in the third-quarter 1951 "champ-
ion plant" competition, and were awarded the championship pennants and prizes
during the 7 November shop holiday proceedings: the Csepel Petroleum Industry
Enterprise; the Armin Shaft of the Ajka Coal Mines; and the Kobanya Brick Fac-
tory, where production exceeded the plan sufficiently to make up for nonfulfill-
ment of the first quarter plan.

Second places were awarded to the Sirok construction project of the 22d
State Construction Trust; the Esztergom Machine Tool Factory; the Main Tele-
phone Center, a three-time winner; the Metal Mass-Production Goods Plant; the
Industrial Building Planning Enterprise; and the Electrical Equipment Enter-
prise.
